Construction**

I

am writing to introduce flooring system and tell you about the products and services we have developed for all type and size of industry. We specialize in the finishing, sealing and repair of concrete floors. Our many products include various types of non-skid safety coatings.

We are leading manufacturer and supplier of Industrial Flooring System with and experience of 8 years. We have been in this business since 2007 and in that time we have built a solid reputaton of quality, dependency and value and customer satisfaction. We specialize in the finshing, sealing and repair of floors.

Our main products include various types of non-skid safety coating like:

Epoxy Flooring	Epoxy Coving
UV Resistance Coating	EPU Flooring
Wall Coating (Pharma & Industrial)	Building construction & Maintenance
PU Flooring	Water Proofing
Industrial Paints	ESD Flooring
Groove Filling / Gouting	

We can provide any colors, finish, texture and properties like Acid Resistance, Oil Resistance, Impact and Temperature Resistance, Anti-skid and conductive etc. to your floor according to your requirment.

As sites we work around the customer schedule to minimize downtime and production interferences. Once the installing process begins, the crew works quickly and efficiently to complete the job in a timely manner and prove "Our Customers satisfaction is the Foundation of our Business."

After all, we believe in keeping continuous customer relation by extending technical service both on pre sales & post sales basis. Keeping this in mind, we provide Round The Clock Service to our customers.

Your Faithfully,

Epoxy Flooring

Our comprehensive range of industrial Epoxy flooring coating products are designed for with standing the harsh conditions that are common to heavy duty enviroment.

Benefits:

Excellent Gloss

Hard-Wearing

Abrasion resistant

Solvent free, low odour

Attractive, brightens up dull factories & warehouse

Seamless & Hygenic Finish

PU Flooring

Novatech's vast range of PU self- level flooring are widely accepted in alomost all kinds of industrial segments, which are known for their flexo-hard properties with an appealing finish.

Benefits:

Excellent flexibility as compared to regular epoxy.

Excellent abrasion resistant.

Very good self leveling properties.

Excellent adhesion.

ESD Flooring

Our ESD flooring products has successfully proven to prevent harmful electrical charge build-up from destroying sensitive components by dissipating the charge safely to the ground.

Benefits:

- Electrostatically conductive
- High Chemical Resistant
- Hard Wearing Resistant
- Good Abrasion Resistant

Application Process of Epoxy Flooring

Step - 1 Hard Grinding

Step - 2 Priming

Step - 3 Screeding

Step - 4 Soft Grinding

Step - 5 Sealer Coat

Step - 6 Top Coat
